2024 PENNSYLVANIA FARM SHOW CODE OF SHOW RING ETHICS

THE STATE FARM PRODUCTS SHOW COMMISSION has developed a Code of Show Ring Ethics to curtail unethical, deceptive, and fraudulent show ring practices. The Code is as follows: Exhibitors of animals at the Farm Show shall at all times deport themselves with honesty and good sportsmanship. Their conduct in this competitive environment shall always reflect the highest standards of honor and dignity to promote the advancement of agricultural education. This code applies to junior as well as open class exhibitors who compete in structured classes of competition. This code applies to all livestock offered in any event at the livestock show. All youth leaders working with junior exhibitors are under an affirmative responsibility to do more than avoid improper conduct or questionable acts. Their moral values must be so certain and positive that those younger and more pliable will be influenced by their fine example. Owners, exhibitors, fitters, trainers, and absolutely responsible persons who violate the code of ethics will forfeit premiums, awards, and auction proceeds and may be prohibited from future exhibition in accordance with the rules adopted by the Commission. Exhibitors who violate this code of ethics demean the integrity of all livestock exhibitors and should be prohibited from competition at all livestock shows in the United States and Canada. The following is a list of GUIDELINES for all exhibitors and all livestock in competitive events:

1. All exhibitors must present, upon request of show officials, proof of ownership, length of ownership, and age of all animals entered. Misrepresentation of ownership, age, or any fact relating thereto is prohibited.
2. Owners, exhibitors, fitters, trainers, or absolutely responsible persons shall provide animal health certificates from licensed veterinarians upon request by show officials.
3. Junior exhibitors are expected to care for and groom their animals while at the show.
4. Animals shall be presented to the show or competition event free of unapproved or illegal drug residues. Market animals that will enter the food chain shall only use products that are solely in accordance with the USDA and FDA approved labels and administered according to label instructions of the product being used for the approved species being shown. Product withdrawals shall be in accordance to all labels, with sale day being the last day of the withdrawal period. Animals not entered in an event that culminates with the animal entering the food chain shall not be administered drugs other than in accordance with applicable federal and state statutes, regulations, or rules. The act of entering an animal in a livestock show or contest is giving of consent by the owner, exhibitor, fitter, trainer, and/or absolutely responsible person for Show Management to obtain any specimen of urine, saliva, blood, or other substances from the animal to be used for testing. If the laboratory report on the analysis of saliva, urine, blood, or other sample taken from livestock indicates the presence of forbidden drugs or medication, this shall be prima facie evidence such substance has been administered to the animal either internally or externally. It is presumed that the sample of urine, saliva, blood, or other substance tested by the approved laboratory to which it is sent is the one taken from the animal in question, its integrity is preserved and all procedures of said collection and preservation, transfer to the laboratory and analysis of the sample are correct and accurate and the report received from the laboratory pertains to the sample taken from the animal in question and correctly reflects the condition of the animal at the time the sample was taken, with the burden on the owner, exhibitor, fitter, trainer, or absolutely responsible person to prove otherwise. At any time after an animal arrives on Farm Show premises, all treatments involving the use of drugs and/or medications for the sole purpose of protecting the health of the animal shall be administered by a licensed veterinarian.
5. Any drugs or implants injected or used shall be in accordance with USDA or FDA approved labels. All other surgical procedures, non-USDA or non- FDA approved substances, or illegal injection of any foreign substance or drug, including drenching and pumping of fluids, or the external application of any substance (irritant, counterirritant, or similar substance) which could affect the animal's performance or alter its natural contour, conformation, or appearance, except external applications of substances to the hooves or horns of animals which affect appearance only and except for surgical procedures performed by a duly licensed veterinarian for the sole purpose of protecting the health of the animal, is prohibited.
6. The use of showing and/or handling practices or devices such as striking animals to cause swelling, using electrical contrivance, or other similar practices are not acceptable and are prohibited.
7. Direct interference with the judge, Show Management, other exhibitors, breed representatives, or show officials before, during, or after the competitive event is prohibited. In the furtherance of their official duty, all judges, Show Management, or other show officials shall be treated with courtesy, cooperation, and respect and no person shall direct abusive or threatening conduct toward them.
8. 3. All equipment will be provided by the committee for each species. This includes number harnesses.

If an exhibitor wins grand champion for more than one species, they will choose which of their awarded grand champion showman titles they will represent, and the reserve grand champion will represent for the other specie(s). Participants will not go beyond grand and reserve grand champion showmen. If the grand champion and reserve grand champion are already participating in the contest and happen to win in additional species, there will be no substitution for these species.
5. There will be a mandatory participant meeting Tuesday evening at 7:30 pm on the porch of the livestock office to go over details of contest and declare species. At this point, participants will declare which species they will be representing officially, after this time they cannot change species representation. Up until this point, they do NOT have to officially declare species representation; no pressuring or heckling of any kind will be tolerated.
6. Qualified and impartial judges that are knowledgeable in all species represented in the premier showmanship contest will be selected. There will be a minimum of two judges each year. All decisions made by the judges are final.
